Mr. Jacob  
Hiring Manager  
Industrial Designer Position  
XYZ Company  
London

Dear Mr. Jacob

With reference to your advertisement in VePub.com for the job opening for the post of an Industrial Designer, I would like to express my strong interest in this position. As a highly skilled and successful industrial designer specialist with more than five years of experience developing concepts and designs, I am confident in my ability to contribute toward the success of your company.

I am familiar with most design software including 3D and CAD software and industrial CT scanning to test for defects. I am also a hands-on designer with the ability to translate a concept into a model to present for approval to move ahead.

My successful history of supervision and enhancing industrial product design and progress will contribute immensely to the success of your company. Furthermore, my superior time management talents and my tireless work ethic are sure to render me an immediate asset to your team.

For more information about my employment background please take a look at my attached resume. I'd appreciate the opportunity to meet you in person to discuss anything related to your organization and the work as a mining engineer.

Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,

Jason Lind
