Abstract

Abstract: Creating and maintaining online profiles will help you to see the impact of your research outputs' on the research community and greater public. Online profiles is an essential tool to disseminate your research and publications. Scholarly identifiers and online profiles like *ResearcherID* and *ORCiD* provide a solution to the author ambiguity problem within the scholarly research community. They can also help you to track and measure the impact of your scholarly research publications. *Google Scholar* also is a popular way to showcase your papers and the citations they've received. However, before creating your online profiles you need to prepare your own subject area, research interest , and brand name.

Keywords: H-index, Improve citations, Research tools, Bibliometrics, Research Visibility

LITERATURE REVIEWING WITH RESEARCH TOOLS

BENEFITS!!!!

- ♦ Save time
- ♦ Safe keep downloaded articles
- ♦ Practical usage of research tools
- ♦ Clear direction for literature review and paper writing

DETAILS

Date : **MAY 16th & 23rd, 2017 (TUESDAY)**
 Time : **9.00 am — 4.30 pm**
 Venue: **Computer Lab, Level 2,
 Research Management & Innovation Complex (IPPP)**
 Fees : **RM 400.00 (UM STAFF & STUDENTS)**
RM 1,500.00 (NON-UM STAFF & STUDENTS)

Facilitator

Dr. Nader Ale Ebrahim

Visiting Research Fellow, Centre for Research Services, IPPP, UM

- ♦ Winner of 'Refer-a-Colleague Competition'
- ♦ Creator of "Research Tools" Box
- ♦ Developer of "Publication Marketing Tools"

For more details, please visit: <http://umconference.um.edu.my/ls>

PROGRAMME

No.	Topic	No.	Topic
Day 1:		Day 2:	
1	What is a literature review	17	The paraphrasing & editing tool
2	Systematic review	18	Avoid plagiarism
3	Narrow the area of research	19	Reference management tool
4	Review biases	20	Writing a literature review
5	Identifying a research problem	21	A structured abstract
6	Finding keyword	22	Integrating arguments in paragraphs
7	Introduce "Research Tools" box	23	Verbs for referencing
8	Selecting keywords	24	Paper submission procedure
9	Finding proper articles	25	Author self-check
10	Evaluate a paper quality	26	Cover letter development
11	H-index and g-index	27	Acceptance procedure
12	Publish or Perish	28	Target suitable journal
13	Evaluate a journal quality	29	Promote your publication to get more citation
14	Impact factor- Journal ranking	30	H-index importance
15	Keeping up-to-date (Alert system)	31	Document-publishing tools
16	Indexing desktop search tool	32	Q&A and closing

REGISTRATION

The deadline for registration is on **11 MAY 2017**.
 Please visit <http://umconference.um.edu.my/ls> for registration.

PAYMENT METHODS

Cheque and Government Local Order

- ♦ Payment must be made by crossed A/C Payee cheques or Government Local Order and issue to:
BENDAHARI UNIVERSITI MALAYA (CIMB Account No: 80-0127999-8)

Direct Bank-In

- ♦ Please bank-in to the account :
BENDAHARI UNIVERSITI MALAYA (CIMB Account No: 80-0127999-8)

Internal Money Transfer / Journal Transfer

- ♦ WBS No: UM.0000090/KWJ.AK
 Account code: 76506
 Account name: A/K AKTIVITI USPI (UNIT SOKONGAN PENERBITAN ILMIAH)-TNC(P&I)

Kindly email the proof of payment to ppp_workshop@um.edu.my latest by 11 May 2017 to confirm your participation

For further enquiries kindly contact us at:

Centre for Research Services (PPP)

Workshop Series :

Strategies to Enhance Research Visibility, Impact & Citations

Boosting your Research Visibility

Do you know "Over 43% of ISI papers have never ever received any citations?" (nature.com/top100_2014). Publishing a high quality paper in scientific journals is only halfway towards receiving citation in the future. The rest of the journey is dependent on disseminating the publications via proper utilization of the "[Research Tools](#)". Proper tools allow the researchers to increase the research impact and citations for their publications. This workshop series will provide you various techniques on how you can increase the visibility and hence the impact of your research work.

Who should attend?

The workshop is for professors, lecturers, and researchers who have published papers and would like to increase their papers' visibility and citation index. The workshop is applicable for various research disciplines. This workshop series is for UM Staff and UM students only.

Workshop Details & Registration

Speaker: **Dr. Nader Ale Ebrahim, PhD (Research Fellow)**
Dr. Bong Yii Bonn, PhD (Research Manager)

Venue: **Computer Lab, Level 2, Institute of Research Management & Services (IPPP)**
Research Management & Innovation Complex, University of Malaya

Organizer: **Centre for research Services (PPP), IPPP, University of Malaya**

Time & Date: **Kindly refer page 2 of the brochure**

Fees: **RM 10.00 per Session / Topic**
*** Direct Bank-In ONLY**
 Please bank-in to the account :
 BENDAHARI UNIVERSITI MALAYA (CIMB Account No: 80-0127999-8)

WORKSHOP SERIES 5

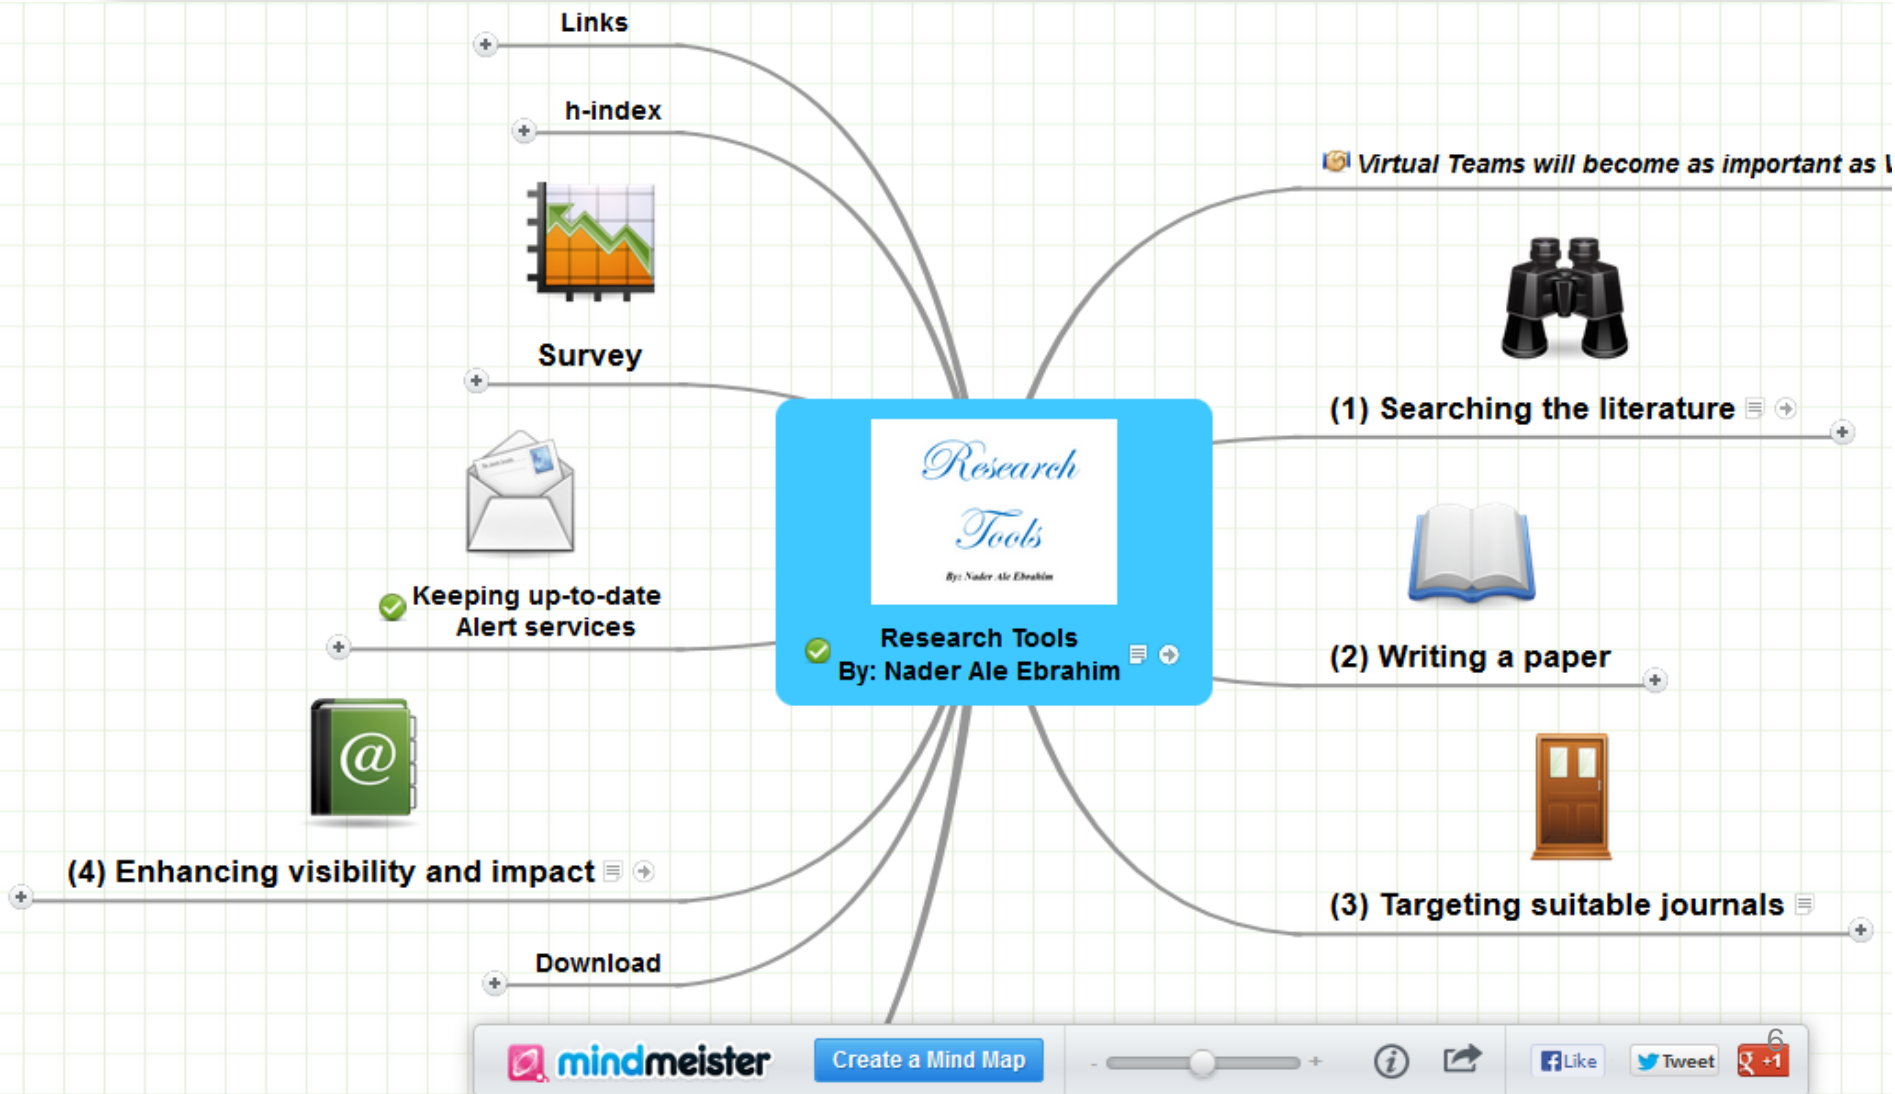

DATE	TIME	TOPIC
19 April 2017	9.00 a.m. – 12.00 p.m.	Improving Research Visibility Part 1: Search Engine Optimization
26 April 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 2: Pre/Post Prints Preparation
3 May 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 3: Online Profiles
17 May 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 4: Open Access Repositories
24 May 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 5: Blogging and Online Magazines
31 May 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 6: Academic Social Networking
7 June 2017	9.00a.m. – 12.00 p.m.	Improving Research Visibility Part 7: Measuring Research Impact

Introducing our Digital Identity Healthcheck for Academics

Source: <https://blog.piirus.ac.uk/2015/10/19/digital-identity-healthcheck-for-academics-our-video-summary/>

Benefits of Open Access

CC-BY Danny Kingsley & Sarah Brown

From submission to sharing: the life cycle of an article

- **Phase 1: Conception and birth**
- **Phase 2: Submission**
- **Phase 3: Reviewers**
- **Phase 4: Production and publication**
- **Phase 5: Dissemination and archiving**
 - The article is published, but its life cycle isn't yet complete. In this phase, dissemination can start; sharing the Share Links article helps increase readership and make it more visible.

Source: <https://www.elsevier.com/reviewers-update/home/featured-article/from-submission-to-sharing-the-life-cycle-of-an-article>

Author Identification Systems

Author name disambiguation and the association of scholarly works with the correct author have long been a problem for those wishing to develop a comprehensive list of publications for individuals.

Source: A. B. Wagner, "Author Identification Systems," *Issues in Science and Technology Librarianship*, 2009.

Benefits of Researcher Identifiers

THE UNIVERSITY OF
MELBOURNE

🏠 23 Research Things / Thing 07: Researcher identifiers and your publication profile

- It's well worth investing time to set up your researcher identifiers and online publication profile. *They increase your **online visibility** and thus the chances of your research **being read** and **being cited**.*

Source: <http://blogs.unimelb.edu.au/23researchthings/2014/05/12/thing-07-tools-to-measure-research-impact-and-manage-your-publication-profile/>

The Challenge at Hand

- Inconsistent name formats caused by the authors themselves or editors
- Various transliteration systems, especially where different non-Roman alphabet names result in the same transliterated Roman alphabet name.
- Legal name changes
- Cultural variants in the position of surnames
- Compound or hyphenated names
- The sheer volume of scholarly materials
- Highly similar names sometimes even doing similar work at the same institution.
- The large number of common names, especially certain surnames in many cultures.

Source: A. B. Wagner, "Author Identification Systems," *Issues in Science and Technology Librarianship*, 2009.

Including hyperlinks in your CV can make a big difference.

The digital scholar and the academic job market: Including hyperlinks in your CV can make a big difference.

How can academics ensure their job application stands out from the rest? **Patrick Dunleavy** advocates going fully digital, where clearly clickable and open-access hyperlinks are provided for all your publications, writings and alternative outputs. Alongside the ease this provides the selection committee, adding digital links to all your recent top research articles will reassure UK selectors that your research falls under the HEFCE open access mandates for the next REF.

The rules governing academic CVs and résumés are complex. And they are generally different from those applying to all other spheres of the job market. In particular academic CVs often look as if they are lagging decades behind those in other sectors of life. Researchers still mostly operate with documents designed for paper printing only, set out in conservative ways and devoid of any digital

**Nader Ale
Ebrahim**

ORCID ID

 orcid.org/0000-0001-7091-4439

**ORCID provides a
persistent digital
identifier that
distinguishes researchers
from each other
... and MORE**

ORCID (“orkid”)

= **O**pen **R**esearcher and **C**ontributor **I**D

NOT:

“ORCID is like a DOI for researchers.”

What is ORCID ?

The ORCID Organization

- Non-profit, non-proprietary, open, and community-driven
- Global, interdisciplinary
- Supported by the membership of organizations using the ORCID API
 - Funding organizations
 - Professional societies
 - Universities & research institutes
 - Publishers

The ORCID iD

- Unique, persistent identifier for researchers & scholars
- Free to researchers
- Can be used throughout one's career, across professional activities, disciplines, nations & languages
- Embedded into workflows & metadata
- API enables interoperability between siloed systems

ORCID is a hub

ORCID connects different ID systems through open & persistent identifiers

- ✓ Machine-readable
- ✓ Interoperable

Orcid provides:

✓ Plumbing for research information

✓ Tools to build trust in digital information

Persistent digital identifiers to distinguish researchers from each other

Member-built integrations enabling automated links between researchers and their activities/affiliations

A hub for machine-readable connections between identifiers for organizations, funding, outputs, and people

EBSCO Information Services joins ORCID

The logo for EBSCO, consisting of the word "EBSCO" in white, bold, sans-serif capital letters on a dark blue rectangular background.

INFORMATION SERVICES

IPSWICH, Mass. — October 22, 2013 — EBSCO Information Services (EBSCO) announces it is now a member of Open Researcher and Contributor ID (ORCID), an open, non-profit, community-driven effort to create and maintain a registry of unique and persistent researcher identifiers. ORCID works with the community to embed these identifiers in research workflows and systems to connect researchers with their scholarly activities and contributions.

Source: <http://www.ebscohost.com/newsroom/stories/ebsco-information-services-joins-orcid>

Why get an ORCID identifier?

Benefits of getting an ORCID iD include:

- Ensuring researchers get credit for their work
- Reducing time to identify scholarly output (see “Publisher integration,” below)
- Enabling scholars to keep track of and report on their work with funders, publishers and institutions
- Repurposing data for use in CV generation, citation repositories, BU Profiles, annual reports, faculty web-sites, and other systems (see “Grant submission integration,” below)
- Tying individuals to their scholarly work should make finding academic papers easier and more accurate

Publisher integration: Elsevier, Thomson Reuters, Nature and other major publishers have begun integrating ORCID iDs into the manuscript submission process, and embedding ORCID identifiers across their scientific and scholarly research ecosystem. This will save authors time during submission, and enable automatic updating of author bibliographies when articles are published. That information can be ingested into BU systems, at each scholar’s discretion.

Grant submission integration: NIH, NSF and other federal agencies are planning to integrate ORCID iDs into the ScienCV platform, for linking researchers, their grants, and their scientific output. The US federal government has been working to create a fed-wide profile system to streamline the grants and contract application process and reduce the data entry burden for investigators, and ORCID holds promise to be part of the solution.

Build an online Curriculum Vitae

- Register with ResearcherID (Web of Science) and ORCID

See more at: <http://libguides.library.curtin.edu.au/content.php?pid=417077&sid=3408994>

ResearcherID – an older id system associated with the Web of Science (WOS). Your ORCID and ResearcherID profiles can easily be linked. Citation counts for publications in ResearchID are automatically updated from WOS.

ORCID (Open Researcher and Contributor ID) – a new, broadly supported researcher profile that creates a unique author identification number. By creating an authoritative publication list associated with your ID number, you can minimize confusion with other researchers with similar names.

See more at: <http://library.buffalo.edu/scholarly/action/>

ResearcherID gives author disambiguation a good name, enhancing discoverability and ensuring credit where credit is due

Source: <http://stateofinnovation.thomsonreuters.com/author-disambiguation-whats-in-a-name>

What is ResearcherID

- www.researcherid.com
- Online registry for creating a unique researcher ID number> helps in disambiguation
- Build a publication list identifying your work
- Make your profile public or private
 - Public profiles can be searched and viewed by others
- Generate citation metrics including: H-index
 - Citation distribution per year
 - Total Times Cited count
 - Average Times Cited

Global research community where researchers connect Keep all your publications in one place accessible anytime and anywhere on the web

Source: Melissa Badenhorst (2015), Sales & Marketing Manager, WorldWide Information Services , Agent: Thomson Reuters <http://hdl.handle.net/2263/49260>

ResearcherID is a unique digital alpha-numeric identifier containing the year of creation.

The screenshot shows the 'Managing Author Profiles Online' page on the LibGuides website. The page features a navigation menu with tabs for Home, ORCID, ResearcherID (selected), Scopus Author ID, and Google Scholar Citations. The main content area is titled 'Managing Author Profiles Online' and includes a description of ResearcherID, a list of steps to create a profile, and a feedback section. The NIE logo is visible in the top left corner.

RESEARCHERID

ResearcherID is a unique digital alpha-numeric identifier containing the year of creation. With a ResearcherID, users can update their profile information, build their publication list using Web of Science, EndNote Web or by uploading an RIS file, and choose to make their profile public or private.

ResearcherID is fully integrated with the Thomson Reuters' Web of Science.

Create a ResearcherID profile

1. Register for a [ResearcherID](#). A link will be emailed to you for confirmation and to complete the registration process.
2. Add variants of your name (e.g., Mueller J.; Muller J; Mueller, JR; Jörg Müller; Joerg Mueller; Jorg Muller).
3. Use **National Institute of Education, Nanyang Technological University** as the primary institution name.
4. Agree to exchange data with ORCID.
 - [Register for ResearcherID](#)
 - [View the video on how to create your ResearcherID profile](#)

ResearcherID – Identify your publications

ResearcherID is a tool to fight the problem of ambiguity within the scientific community by supplying each scholar with a unique identifier and associating each researcher with his or her published work. ResearcherID helps to make sure that the publication and citation credits are directed to right scholars.

Publications can be added by either identifying them in Web of Knowledge, adding them using EndNote Web or uploading an RIS file (e.g. from RefWorks citation manager). Based on the publications, ResearcherID will calculate the scholar's H-index and provide various statistics and graphs that are based on for example citation count and co-authors.

When you send your ID number to the Library, we can identify Aalto publications more accurately for correct researchers and departments. By standardizing author names the information searches used for example in publication analysis are more accurate. With ResearcherID each scholar can maintain and share their publication list and citation information.

5 steps for creating your own ResearcherID:

1. Register at www.researcherid.com and receive your personal ID.
2. Make sure your profile contains "Aalto University, Dept. of..." as an affiliation. You can also add your past affiliations in your profile.
3. Identify your papers in the Web of Knowledge databases and link them to your ResearcherID. You can also add publications using EndNote Web or by uploading RIS file. Please notice that ResearcherID can calculate the citation data only from the Web of Knowledge databases: the citation metrics will not be transferred from other databases and the H-index is based only on the data from Web of Knowledge.

My Publications: 109

To add publications to your Publication List, select one of the options below by clicking a link.

Note: Depending on your permission to access *Web of Science™* and *Web of Science™ Core Collection*, you will have one or more of the following options:

Option 1:

WEB OF SCIENCE™

Search *Web of Science*

Use this option to search *Web of Science*. Depending on your subscription, this can include articles, books, patents, and more.

Search *Web of Science Core Collection*

Use this option to search *Web of Science Core Collection*. Depending on your subscription, this includes the world's leading scholarly literature in the sciences, social sciences, arts, and humanities and

Option 2:

ENDNOTE™

Go to EndNote

Use your EndNote account to add articles and manage your ResearcherID publication lists.

Already use EndNote? You can transfer your ResearcherID publication lists between the desktop and web effortlessly. Learn about the additional features available in EndNote to accelerate your research including find full text automatically and access to over 3,700 publishing styles.

Option 3:

Upload RIS file.

Upload an RIS file (from EndNote, RefMan or other reference software)

You can upload an RIS formatted text file. The RIS file format is a tagged format for expressing bibliographic citations.

Description: Nader Ale Ebrahim holds a PhD degree in Technology Management from the Department of Engineering Design and Manufacture, Faculty of Engineering, University of Malaya. He holds a Master of Science in the Mechanical Engineering from the University of Tehran with distinguished honors. He also has over 19 years of experience in the establishment of the R&D departments in different companies, heading projects as the project director and project coordinator and implementing knowledge based system in the R&D department. His current research interest focuses on E-skills, Research Tools, Bibliometrics and managing virtual NPD teams in SMEs' R&D centers. His papers/articles have published and presented in the several journals and conferences.

DOI: 10.5539/ass.v9n5p176 URL: http://papers.ssrn.com/sol3/papers.cfm?abstract_id=2257552

Journal impact factor (IF) as a gauge of influence and impact of a particular journal comparing with other journals in the same area of research, reports the mean number of citations to the published articles in particular journal. Although, IF attracts more attention and being used more frequently than other measures, it has been subjected to criticisms, which overcome the advantages of IF. Critically, extensive use of IF may result in destroying editorial and researchers' behaviour, which could compromise the quality of scientific articles. Therefore, it is the time of the timeliness and importance of a new invent

Scopus Author Identifier

Each author in Scopus is assigned a unique number. The author's publications are then easily identified and can be viewed as a single list. Citation counts and h-index are displayed.

See more at: <http://www.library.auckland.ac.nz/biblioinformatics/personal.htm>

How do I find my author ID?

The screenshot shows the Scopus website interface. At the top left is the Scopus logo, and at the top right are links for Scopus and ScVal. Below this is a navigation bar with tabs for Search, Alerts, and Lists. The Search tab is active. Underneath, there are links for Document search, Author search (which is underlined), Affiliation search, and Advanced search. To the right of these are links for Browse Sources and Compare journals. The main search area contains several input fields: 'Author Last Name...' with the example 'e.g. Smith', 'Author Initials or First Name...' with the example 'e.g. J.L.', and 'Affiliation...' with the example 'e.g. University of Toronto...'. There is a search button with a magnifying glass icon. Below these fields is a checkbox labeled 'Show exact matches only'. At the bottom left of the search area is an 'ORCID...' field with the example 'e.g. 1111-2222-3333-444x' and another search button. Below the search area is a 'Limit to:' section with a 'Subject Areas' heading. Under this heading, there are six checkboxes, all of which are checked: 'Life Sciences', 'Health Sciences', 'Physical Sciences', and 'Social Sciences & Humanities'.

Find yourself in the Scopus database by using the ‘Author Search’ tab

ABSTRACT

The Rise of "Trade Liberalization": Bibliometric Analysis of Trade Liberalization Study

Murtala Muhammad, Abubakar Ahmed, Gold Kafilah Lola, Usman Mikail Usman, Nader Ale Ebrahim

Abstract

The purpose of this research is to assess the universal scientific trends and examine the patterns in the intellectual research published on trade liberalization over a period of 35 years (1980-2015). The data were collected from a leading indexing and abstracting database Thomson Reuters Web of Science. The Kruskal-Wallis test, ANOVA and Pearson's correlation were employed in analyzing the retrieved data. Based on the citation trend of first 100 highly cited published articles with the least number of authors are found to have received the highest number of citations. Our result shows that there is actual statistical significance ($p < 0.001$) between the total citations attracted by articles published by 1 author and those published by 3 and 4 authors. The word trade liberalization has become dominant and consistent in the field of the study. These research trend and interest could provide focus to researchers for future research.
